Massage Chair B15

S&L back track allows the back roller mechanism moves from head to buttocks, whereby expanded the core massage area greatly. The curve is ergonomically designed, which makes the neck and waist massage more powerful than ever.

S&L back track

A zero gravity position can help relieving stress on the back spine and allows for a deeper, more intense massage experience; plus, it promotes circulation in the legs and reduces swelling.

Zero Gravity

Equipped with 3 rows of roller in the sole and calf area, offer deep tissue massage, help improving the circulation and releasing stress.
