JUJIANG

Giant Alarm System Co.,Ltd

Company Profile

Quanzhou Giant Alarm System was established at the year of 2003.

Our main products are: smart swing gate opener, sliding opener, automatic boom barrier, all kinds of smart control boards for gate opener and other accessories of the automatic machine system. As a high-tech manufacture and trading company, our business covers from R&D, production, sales to service. Our major honors are: National High-tech Enterprise, Fujian Famous Brand, and Fujian Innovative Pilot Enterprise, Fujian High-tech Enterprise.

As a company that has over 100 employees, Giant covers an area of 14000 Square meters with over 10000 Square meters workshops. Since the day of establishment, Giant has been firmly following the concept of "Science and technology constitute a primary productive force", and oriented by developing self technological innovation and brand products

Giant has continuously passed international SGS and BV inspection certification for more than 10 years. With over 13 years worldwide trading experience, Giant's products have been tested by European standard trail (over 100 products have been marked by several international product certifications like CE, ROHS, FCC etc.) and have found ready markets in more than 40 countries and religions all over the world. Giant has more than 5 years long term cooperation with over 40 customers. Our vision of establishing Giant is to trading with virtue, trading to nurture kindness, trading to strengthen our country. Our mission is that our made-in-China products can be respected worldwide, our core value is "Integrity, team, win-win, innovation, and responsibility".

Company Culture

Company vision

Business Ethically & Contribution in Charity to Fill the world with Love.

Company positioning

Auto-gate Accessories, Control board, Security Products.

Company mission

Gate/Door Opener, providing a good security system

Core values

integrity

teamwork

win-win

innovation

responsibility

Business philosophy

Quality 1st, Innovation with creativity, Brand Reputation, Achieve Win-Win situation, Great Service to built Trust Credibility.

Company spirit

Self -Confidence, Responsibility, Innovative, Pragmatical & Hard work.

The Flow Chart For Encoding The Remote Control Duplicator

1. Duplicator

2. To remove the existing code:
Press 1st button and 2nd button until the LED flashes (approximately 10 seconds), release both buttons and all codes will be eliminated.

4. Code retrieval :
If the code is inadvertently removed The previous code can be retrieved by 3rd button and 4th button until the LED flashes (approximately 5 seconds)

3. To duplicate code:
Hold the original duplicator as close as possible to each other. Press 1st button on both duplicator and original transmitter at the same time, after 3 seconds, the LED will flash steadily, release both buttons and the code will have been accepted. Repeat the above operation to duplicate the code of the other buttons.

Universal Remote Control

Giant's universal remote control is easy and convenient to be use. It is used for motorcycle alarm system, car alarm system, auto gate, door motor, LED, toy and other security product, The frequency can be customised as 303M, 303.825M, 330M, 390M, 433M, 433.92M, 868.35M, 868.8MHz. The encoder can be customized as SC2260, SC2262, PT2240, EV1527, HS1527, HT6P20B, HT6P20D, SMC926, SMC5326P, HCS201, HCS300, HCS301, HCS306, HCS360.

The following table is the most popular chips in Giant, other chips are also available

Duplicator	A3,F7,I,I6,I11,K,M(adjustable frequency or customized),M3(adjustable frequency or customized),R3
SC2260	F,I,I8,M

Operating temperature	-40°C~+85°C				

JJ-JS-069

DESCRIPTION:

Low consumption OOK/ASK superheterodyne receiver with high performance, reliability and compact dimensions based on super-heterodyne

HIGHLIGHTS:

Developed according to European ETSI-300-220 and American FCC (15th part)

APPLICATIONS:

Security systems, car and motorcycle anti-theft systems, data-collection mobile radio-systems, battery-fed radio-controlled devices, data transmission, garage door and more.

JJ-JS-07

Parameter	specification			Unit	Condition
	Min	Typ	Max		
Frequency	868.7	868.8	868.9	MHz	
Receiver sensitivity		-91	-110	dBm	
Supply Voltage VDD	4.5	5.0	5.5	V	DC

Operating temperature	-40°C~+85°C				

Universal Receiver JJ-JS-091-1

Universal Remote Control

JJ-RC-SM16

Frequency:433.92mhz/315mhz/customized
 Battery Model:23A
 Voltage:12V
 Material:ABS
 Modulation Mode:ASK
 Button:2 button, 2 channel
 Range:80m-150m
 Code:Fixed code EV1527, learning code
 Function:Automation system garage door remote,rf transmitter

UNIVERSAL 2 CHANNEL ELECTRIC GATE REMOTE CONTROL FIXED CODE EV1527 JJ-RC-SM16 are mainly used for popular garage or gate openers all over the world.

Universal remote (transmitter, keyfob) applied to : Car alarm remotes/ Motorbike alarm remotes/ Housealarm remotes.Garage / Electric garage door remotes. / Electric gate remotes./ Home automation device remotes - ie. / Remote sockets, Lights etc.

Universal Receiver

JJ-JS-091-1

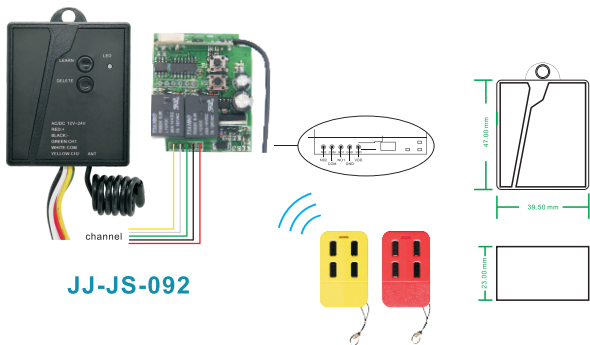

Frequency:433.92mhz/868mhz
 Voltage:12V-24V AC/DC
 Working Range:50-100m
 Channel:2 CH
 Certificate:CE ROHS
 Sensitivity:-113dBm (max)
 Decode:Fixed and rolling code
 Application:Garage door , Car System
 Memory capacity:200 codes per channel

It is mainly usage of the rf receiver is for control board. For example, your control board can only linked to 20 remotes, buy it and connect it to control board, then the capacity of your door opener is now enlarged to be 200 remotes.

Or, your control board can only accessed by rolling code remote, buy it and connect it to control board, then you can control your door both by fixed code and rolling code. (If you bought fixed code, you can also buy our duplicator to duplicate the code for your family members.)

Universal Receiver

Advantage: Easy install and program:

1. Programming code through buttons that on the outside of receiver case.
2. Without removing the case to connect the wire.

Model	Working voltage	Latch/non-latch switchable	Channel	Certificate	Output Mode: Dry contact	Connection	Code stored	Extra function
JS-092	12-24V AC/DC	Switchable	2chs	CE/ROHS	Dry contact	Terminal block or cable	200pcs max	Open code
JS-092G	12-24V AC/DC	Switchable	2chs	CE/ROHS	Dry contact	Terminal block or cable	250pcs max	Rolling code

Universal Receiver

JJ-JS-091

Encode:Fixed code and rolling code
 Channel:2-CH (1CH optional)
 Static current:5mA+2
 Working Voltage:12-24V AC/DC
 Range:60-100m in unobstructed area
 Memory capacity:200 codes
 Receive sensitivity:-108dBm(max)
 Dimensions(L×W×T):60*40*30mm
 Net weight:54g

JJ-JS-091-1

Encode:Fixed code and rolling code
 Channel:2-CH (1CH optional)
 Static current:5mA+2
 Working Voltage:12-24V AC/DC
 Range:60-150m in unobstructed area
 Memory capacity:200 codes
 Receive sensitivity:-113dBm(max)
 Dimensions(L×W×T):125*75*35mm
 Net weight:96g

OUTDOOR KIT JJ-JS-091-1 RECEIVER 433.92MHZ

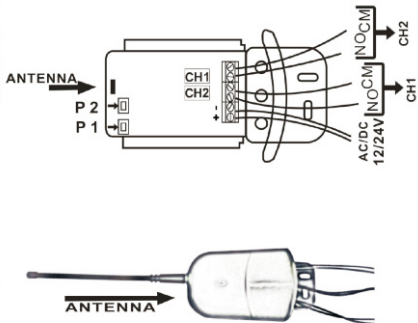

Biggest load current on relay:
2A 24 VDC or 2A 120 VAC

PROGRAMMING:

Press the **P1**:

- 1 time to program **CH1** in monostable mode
- 2 times to program **CH2** in monostable mode
- 3 times to program **CH1** in bistable mode
- 4 times to program **CH2** in bistable mode

hold down the key of the radio remote control that you would like to acquire until the led blinks.

ERASING:

There are two ways of erasing

1.Erasing a single code:

Press **P2** for about two seconds(release the key);the LED will light up, press the key on the radio remote control that you want to delete.

2.Erasing all codes acquired:

Press **P2** until the LED turns on (about 8 seconds).

Universal Receiver

AC 220V waterproof control board JJ-JS-189

Range:60-150m in unobstructed area

 Memory capacity:100 remote controls
 Receive sensitivity:-108dBm(max)
 Dimensions(L×W×T):90*60*28mm
 Net weight:116g

Multi-brand Receiver

JJ-JS-SM18-DP

Control Board
Control Board

Swing Gate Control Board EGA-01

- Power supply: AC16- 24V
- Back up battery: 2*12V lead acid battery
- Motor: 24V DC
- Usage: For swing gate opener
- Remote control: Can be supported for 120 pcs transmitter
- Frequency 433mhz
- Electric lock:Yes
- Running time:Adjustment

Swing Gate Control Board EG-22A

- Power supply: DC 24V.
- Back up battery: 2*12V lead acid battery
- Motor: 24V DC
- Usage: For DC swing gate opener
- Remote control: Can be supported for 120 pcs transmitter
- Frequency 433mhz
- Electric lock:Yes
- Soft start soft stop:Yes
- Running time:Adjustment

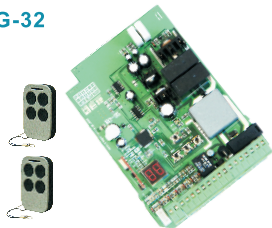

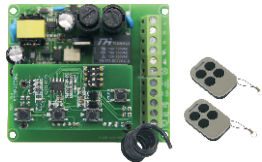

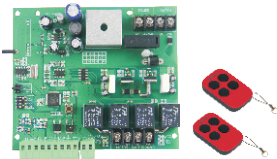

Roller Shutter Control Board EGD-01

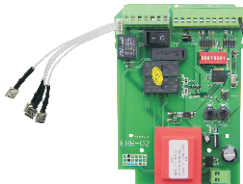

- Power supply: AC 220V
- Static current: 15mA \pm 2mA
- Power consumption: <UNK> 0.8 W
- Rated Load: 2000W.
- Frequency 433.92mhz
- Scope of application: applicable to tubular motor of AC coil gate.
- Remote control code: custom roll code, up to 30 remote controls.

DC Sliding Gate Control Board EG-32

Application: Used For DC Sliding Gate Opener

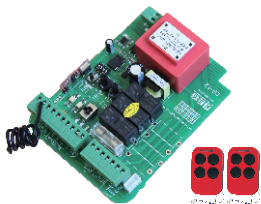

- Voltage: DC24V
- Modulation: ASK Modulation
- Frequency: 433.92MHZ(Other Frequency Customized)
- Protection Fuse: 10A
- Board Memory: 120 Rolling Code Transmitters
- Output Voltage: DC12V-24V

Control Board

Sliding Gate Control Board EGB-02

- Power supply: AC220V(or AC110V)
- Static current: 15 ± 2 mA(AC220V)
- Scope of application: Applicable to communication level door
- Motor characteristics: 220V AC motor.
- Remote control coding; The company custom roll code can support up to 50 remote controls.

Sliding Gate Control Board EG-12

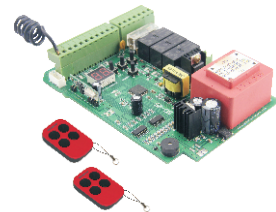

Application: Used For AC Sliding Gate Opener

- Voltage: AC220V/110V
- Modulation: ASK Modulation
- Frequency: 433.92MHZ(Other Frequency Customized)
- Protection Fuse: 10A
- Board Memory: 30 Rolling Code Transmitters
- Output Voltage: AC24V

Control Board

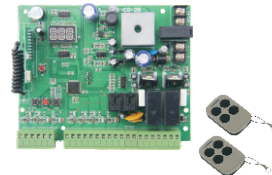

Sliding Gate Control Board EG-25

- Power supply: AC 220V
- Motor: AC 220V
- Usage: For all AC sliding gate with soft start and stop function
- Remote control: Can be supported for 120 pcs transmitter
- Frequency 433.92mhz
- Electric lock:Yes
- Soft start soft stop:Yes
- Running time:Adjustment

Swing Gate Control Board EG-28

- Power supply: AC 24V
- Back up battery: 24V lead acid battery
- Motor: 24V DC
- Usage: For DC swing gate
- Remote control: Can be supported for 120 pcs transmitter

Reflector Photocell

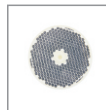

Reflector Photocell

HW-09

- Operating Distance: $\geq 12\text{M}$
- Consumption current: $< 30\text{mA}$
- Warranty: 12 Months
- Power supply: AC/DC 12-24V
- Working temperature: $-20^{\circ}\text{C}-60^{\circ}\text{C}$

- Protection Grade: IP65
- Usage: Automatic gate opener, Position Sensor
- Output: Analog Sensor, Switching Transducer
- Installation method: Correlation, Diffuse Reflection, Mirror Reflection.

Photocell

HW-08

- Working voltage: 12-24V (AC/DC)
- Working current : Receiver≤50mA Emitter : ≤30mA
- Receiver range: ≥12m
- Internal Rotation system adjusted Angle: 0~180°
- Size: 108*35*40mm

HW-07

- Working Voltage:12-24V (AC/DC)
- Working Current:Receiver≤50mA Emitter:≤30mA
- Receiver Range:≤12m
- Internal Rotation System Adjusted Angle: 0~45°
- Size:96*43.5*43.5mm
- Weight:190g

JJ-JD06

- Use: Universal
- Advantage: Gate Flash Lamp
- Function: For swing and sliding gate opener
- Working current: 12V-265V AC/DC
- Power: 1.5W
- IP: Ip54
- Frequency: 1Hz
- Color: Orange
- Size : φ60*85mm

JJ-JD02-FD

- Use: Universal
- Advantage: Gate Flash Lamp
- Type: Automatic Door Operators
- Function: For swing and sliding gate opener
- Clean room: 10000 grades
- Voltage: 12V-265V AC/DC
- Delivery time: 5-7 Working days
- Color: Red, Yellow, Green

Flash Lamp

Wireless Keypad

JJ-TKM-01

- Power supply: 4*AA SIZE (6V)
- CH: 2 Channels
- Feature: Wireless and waterproof
- Usage: For Automatic Door Control
- Frequency 433 MHZ/315MHZ (Customized)
- Warranty: 6 Months
- Color: Black
- Application: use for garage door/automation door. Can copy fixed code remote

Reader

Tag

Receiver

Hands Free Device-Ezy Open

- Working Current:30mA~50mA
- Working Distance: 5M
- Max. Memory:Unlimited Tags
- Working Voltage: DC 2*3V
- Working Frequency: 433.92MHZ
- Tag Max. Memory: 6PCS Readers
- Receiver Working Voltage: DC or AC 12V~24V

JJ-STG-IDT

- Working voltage: 6V (R2032 OF 2)
- Working frequency: 433.92 MHz
- Working distance: 80m
- Keyboards button: 12pcs
- Password restore: 10pcs
- Card memory: 500pcs
- Working current: 12-40mA
- Color: White
- Code: EV1527 and rolling code

GSM Controller

RTU5025

<ul style="list-style-type: none"> • SM Frequency: Quad-band 850/900/1800/1900MHZ 	<ul style="list-style-type: none"> • SIM Card: Supporting 3V SIM Card
<ul style="list-style-type: none"> • 3 G Frequency: 900/2100MHz default 850/1900MHZ optionl 850/2100Mhz optional 	<ul style="list-style-type: none"> • Temperature range: -20+60°C • Back battery: 3.7V/900mAH • Exterior dimension: 130mm*74mm*27mm
<ul style="list-style-type: none"> • DC Power Supply: 9-24VDC/2A 	<ul style="list-style-type: none"> • Net Weight: 260g

Frequency Meter

JJ-368A

Easy to operate

Features

- 1.Voltage:DC9V
- 2.Read ASK and FSK frequency (200-900MHZ)
- 3.Data compare (Compare the data after copying to confirm right or wrong)
- 4.Data detect (detect unknown remote control data and encoder)
- 5.Beep to indicate HCSXXX remote Control
- 6.Detect IR remote control

Features

- 1.Nice appearance design, Large 128-64 LCD display
- 2.Copy fixed code (suitable for original remote control with weak signal)
- 3.Copy parts of rolling code
- 4.Copy RFID
- 5.Copy parts of original car remotos (can copy more than 30 kinds of original car key)
- 6.Regenerate a new remote control
- 7.Data compare (comparethe data after after copying to confirm right or wrong copy)
- 8.Data detect (Detect unknow remote control data and encoder)
- 9.Read frequency (200MHz-1GHz)
- 10.Accept software upgrade via an USB

Spec

Size: 162*130*40mm
 Net weight: 436g
 Input voltage: DC12V
 Output current: 1A
 Operation temperature: -20-85°C

Host Duplicator

JJ-268C

Easy to operate

When the user need it to copy the original car remote controls or rolling code, it must work with the any of following remote control.

JJ-CRC-J6

JJ-CRC-J12

JJ-CRC-J15

Gate Automation Accessories

Loop Detector

Power Supply	AC220V
Power Consumption	30W maximum
Output Relay	12V/3A AC
Working Temperature	-20°C -- +70°C
Loop Inductance Range	50μH~800μH(100~300μH optional)
Work Frequency	20kHz~130kHz
Sensitivity	4 levels adjustable
Self-calibrating	1s~2s
Dimension	79 x22.5x 90mm (L x W x H)

JJ-DG-01
AC220V/ DC12-24V
Power Supply Optional
1CH or 2CH Optional

Exit Wand

JJ-EW-01

The 30M Driveway Vehicle Sensor allows a vehicle to drive past the sensors 4M magnetic field and will open your gate automatically, allowing guests the ability to exit without a Remote

Works with single and dual gates.

Easy DIY (Do It Yourself) installation.

Can be installed 1-30M away from the gate.

Also available in other lengths

12 Months guarantee; Lifelong post sales service.

CT-01 Sliding Gate Nylon Gear Rack

Special use for sliding gate opener

Size

NO.	MOOD	LUGS	Hmm	L	WEIGHT(g)
CT03A	M4	2	26	340	299
CT03B	M4	4	26	1010	856
CT03C	M4	6	27	1020	1338

CT-02 Sliding Gate Steel Gear Rack

Special use for sliding gate opener

Size:

- 8*30*1005mm weight: 1.8 Kg
- 10*30*1005mm weight: 2.1 Kg
- 12*30*1005mm weight: 2.5Kg
- 22*30*1005mm weight: 4.8 Kg
