Catalog 2018-10

# About Wonderful

We started with glow sticks, developed with LED gifts, and from 2001 until now, we are still up and running. SZ Nuo Wei Te Electronic Manufactory is our subsidiary factory which was founded in 2006, with a main line of LED light up products. Our factory passes ICTI, BSCI, WCA etc. audits.

We are a wonderful enterprise and a solution provider, which is more than our typical manufacturer. Here you can find LED items for parties, promotions, seasonal occasions, and outdoor safety equipment. Besides products, we also offer design and OEM service. Unlike the rest, we cater more to your needs and utilize our creative methods to have your ideas recognized.

We would like to thank all of our well-known customers, like DTS, Walmart, CVS, Michael's and more. Through them, we have learned a great deal about growing into a more professional business.

Our mission is to produce happiness-the happiness that is for and from our customers, and even more, the world!
