**Stand up  
and  
Enjoy The Sit Stand Table**

## **Why it is important to use the sit-stand desk!**

Using a sit-stand desk can reduce sedentary behavior, significantly, decrease the risk of lifestyle related diseases and increase our daily well-being.

This small brochure highlights why and how a height adjustable desk should be used. Also, it gives you recommendations how to get started and bring movement into your workday.

# MOVE

---

## **Get started!**

- Obtain motivational tools to get you standing at your desk
- Rearrange the meeting room, stow away chairs
- Team up with colleagues for a joint effort
- Set realistic goals and reward great effort

# **Solutions and Availability.**

Customers want their Omni sales team to offer innovative, competitive solutions and be available when they need them.

# Two Leg Solutions

## provide you with the total solution

Employees are more alert throughout the workday because of increased flexibility and comfort by using height adjustable desks.

### **Different legs, but one frame**

With the wide product program

You get access to different standard columns with motor housings that all fit the same frame construction.

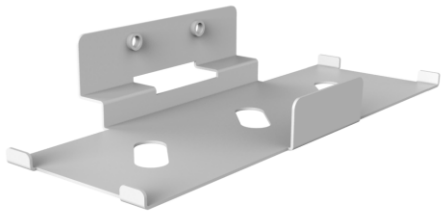

Whether you prefer a rectangular or a round leg, oval leg

And just one screw size for all installation

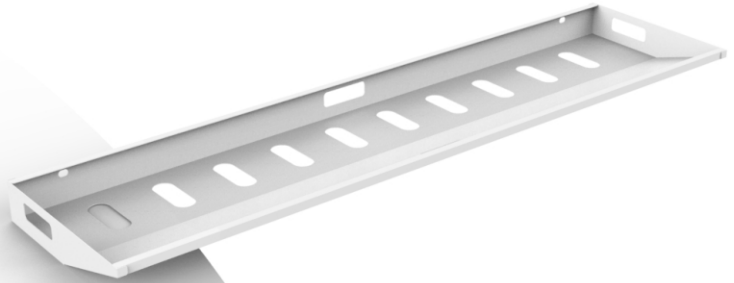

This means it is very easy to create a new design without having to change the desk construction completely.

## Description

Inside the attractive casing resides a most impressive power pack.

Two outlets promise reliable AC power for plugged-in hardware, while the true star of the tandem is the dual 3.0 amp USB port.

Each USB port utilizes a Smart Device Recognition Chip to monitor and independently deliver the required amperage to your devices — up to 2.1 amps each — and charge them in half the time it takes with similar products on the market.

## Features:

Modular Electrical Systems

Power

USB

# Innovation

A photograph of two men in business attire. The man on the left is wearing glasses and a striped tie, looking down at a tablet. The man on the right is smiling and holding a pen, also looking at the tablet. The background is bright and out of focus, suggesting an office or meeting environment.

Ever since the first actuator was developed, Omni has continuously brought new and innovative ideas to the marketplace to meet our customers' needs.

### Material

- For health reasons and for the sake of the environment we use environmental materials
- Heat-resistant 120 centigrade and no deformation
- Working environment: 0-45 centigrade

### Anti-Collision Solution

- Protect your investment both on the way up and on the way down with a electric height adjustable lifting column system that comes with a hardware based anti-collision solution.

### Energy-saving

- Power Input: AC100V-240V 50/60Hz Max. 3. We can use same controller system for all different legs.
- We keep the lower standby power consumption to just 0.1W.
- All control boxes have low standby power as standard.
- The Handset will be turn off automatically if not work reach 1 minutes

### Warranty

- The Omni quality is a combination of high quality components, semi-automatic production testing .
- We have a 5 year warranty

### Certification

- Omni has successfully completed verify the UL 60950 testing for level one certification
- CE/UL for Controller Box IEC 60950-1 (TOP STANDARD)**
- BIFMA testing for total set**

## **Quiet solutions**
