

Winer spa company

Manufacturing Staff – With decades of combined experience behind them, these guys are the best of the best when it comes to delivering the highest-quality products. Their dedication and commitment to going above and beyond is evident in everything they do.

Corner of showroom

Oversea service staff– Proven professionals who are ready and eager to provide you with outstanding customer service and support your dealership 100%.

--When I founded Winer company in 1992, I had one simple notion in mind: an innovative and quality line of spa would be accepted by any OEM factories, dealer and end users, Today, our company is one of the leading producers in China's spa industry,

We have the biggest spa manufacturing area and the latest production tools, test instrument, for spa forming, resin apply, assembling, packing, transfer protect, product checking and test, we have the most effective method and solution for customers. and the most important is that we have a very experienced team, a lot of them have been involved in spa design and manufacturer for more than 10 years, they are professional and high ethics integrity, can be behalf what customers' need and wants, that is what we are pound of, that's why we can constantly go ahead and improve.

Like many industries grow, we also began from the simple copy, we are lucky to gain a lot of young willing people and talents to join our group, These people not only bring new techongly but also a new soul, a soul that moving forward and ever innovation. A lot of new toosl, precision statistic ways are involved in our desgin and production. Now day,we have over 60 hot tub models and 700 equipments for swimming pool designs, all OEC/ODM are available. If you need to meet the requirements of your expanding product range. now you will get the right solution easily – our 15-strong R&D team and 300 workers will work with you until your specifications are met.

Thank you for taking the time to learn more about not only your products, but the company behind them, the winer team looks forward to helping you improve your bottom line by delivering a safer, more attractive, more convenient spa environment that more than your customers expected .

Ms zhang Wu Mei

Winer was the earliest spa manufacturer in China to receive ISO 9001 certification, the most rigorous and demanding standard in the spa industries. Manufacturing and quality processes are audited every half year to maintain this certificate.

- 2003 achieved russia certificate: pocc CN.AI07.B1440

- 2006 all products pased CE certificate, NO:U201133688012;
- From 2006 achieved export licence;
- 2007 all products achieved ROSH approval;
- All pumps are TUV approval, NO: AN5001638801;
- 2012 achieved KC certificate for Korea Market, No: KCC-REI-G74-AMC;
- 2012 achieved SAA for Austrailan market;

winer is pound of achieved all the international certificates of our market, the most rigorous and demanding standard in the spa industries, manufacturing and quality processes.

The surface and seat design can only be characterized as a "soulmate" looking spa. It not only have lovely contour, total 48 pcs water jet and its' layout is an excellent solution to achieve your hydrotherapy needs, among 7 pcs 5" rainstorm big jets can offer a max hydrotherapy to your need. In the center of the spa you will find one big powerful whirlpool jets designed to relieve and relax those tired feet and leg muscles.

One of the most compact models in this Serie, this spa is slim on space, but still big on features. Ergonomic seating for five ensures that everyone will have a comfortable seat with uniquely positioned jets. Unrestricted neck jets provide exceptional massage therapy for soakers of any height. The reclined lounge and four contoured seats each includes our headrests for heavenly comfort.

It is another model that follow the style of AMC-2160. It is not only carry forward the feature of deep and large seat of luxury, but also it have a "curve long chair" that can seat three person together without any baffle, all the spa are supported directly from the enforce base, the strong based are designed with two groove specially for the lift can directly insert and transport.

This paradise spa is the ultimate fusion of an entertainment center with the hydrotherapy of a hot tub. With a large spa you have plenty of room for family and party-size groups. Inside you'll find enough room for seven adults. You'll also find a generous number of jets: 76 in all, in five different styles, offering a variety of hydro-therapeutic hot tub massage options. Which means you and everyone else in your AMC-3050B spa can enjoy an almost unlimited variety of massage. The precedent-setting Max us continues to live up to its reputation as the most luxurious portable hot tub in the spa field. The best of everything in a hot tub is here: a full-body lounge complete with wrist jets; a foot dome with eight massaging jets; 2" roto jets for the neck. At night, the LED lighting system illuminates this gracefully styled spacious spa. The new slim designed foot mount combined with a wider foot well is designed for easy movement into and out of the ergonomically designed seats. As both an outdoor entertainment center and a therapeutic spa retreat...

This feature shares similar dimensions and assets with the AMC-2240B. However, its dedicated lounger, with dual rotating foot jets and calf massage, makes this an unique spa. The versatile triad seat features wraparound, high-flow, adjustable jets and offers multiple variations of hydro-massage options. Hot Tub Collection's adjustable pillows are unlike those in other large hot tubs. At night, colored lights glowing from the waterfalls and from new underwater lights add to the peaceful feeling. Something you won't find in other large hot tubs.

The experts at WINER build in features to personalize the home hot tub experience. spa provides with seats in a variety of depths Seats are molded to support the body. Big space enough for you feet and body relax, Another one of the many ways WINER helps you relax, the AMC-2240 fitted with extreme 6 pcs 5" jets for back and footwell, by a water 2" diverter, a rainstorm that makes these position to be extramely massage. This mid sized spa is ergonomically designed to keep you in place as the jets work their wonder. This spa offers a dedicated lounger with armrests and a dynamic, super-massage foot and leg well in the lounging position. AMC-2240 is a space saving spa that will fit through most doors, yet it easily gives you all the luxury and comfort that are character of AMC-2240.

UNIQUE pumping makes more efficiency extremely river jet powerful pump.

Winer use unique desgin to make all pump sit and the most efficiency place and lest piping, this makes 20% higher efficiency.

Tether Resistance Swim System
 This swim system, developed with professional athletes, transforms each of our All Weather Pools into a means of rehabilitation or conditioning by providing stationary resistance while swimming.

Comprised of a flexible pole and bungee, the tether is fully and soundly adjustable to suit every user's needs.

Top quality in the spa industry

As the new factory celebration of 2007, we launched the first swim spa AMC-5860, formerly know as the anniversary, this spa represents the culmination of more than 15 years of Winer's innovation in the spa design and manufacture, it is the only one both have swim spa and massage part, it provides not only extremely size, power depth for swim, but also cosy for massage and rest. , seperately control system and heater in swim pool and spa, with adjustable current that allows you swim or exercise in place. The current is broad and deep.

Never stop improving, strive for perfection, find what works and made it better, this philosophy goes into making every winer spa and it is how the stratus was born, AMC-5000, AMC-5800 and AMC-5810 are the results of our searching more comfortable, onvenience and new ways to perfect the overall spa experience.

This swim spa series are counter-current swimming pools, all feature an adjustable current that allows you to swim or exercise in place. The current is broad and deep, and is suitable to every swimming ability and fitness need. You can also set the temperature precisely, based on preferences and needs.

Each swim spa is fitted with 6 high-volume spa jets, all jets can be adjusted for the pressure and speed so that can offer a suitable current.

All winer jets are made of 316# stainless steel, have been anti-corrosion and mechanism test, can be used for many years.
