## Stainless Steel Round Pipe

- ▶ Material: High grade stainless steel AISI 304 and 316
- ▶ Finish: Satin or mirror polish.
- ▶ Feature: The body formation, the structure is solid, easy to install, durable and corrosion-resistant for industrial pipeline.
- ▶ Application: Machinery, medical fitness equipment, electroplating, dyeing, trains, cars, bicycles, furniture and other mechanical components and structural pieces, also applied for the decoration-finish.

## Stainless Steel Oval Pipe

- ▶ Material: High grade stainless steel AISI 304 and 316
- ▶ Finish: Satin or mirror polish.
- ▶ Feature: The body formation, the structure is solid, easy to install, durable and corrosion-resistant for architectural engineering.
- ▶ Application: Airport, building, subway, hotel, supermarket, other decoration architectural engineering and so on.
- ▶ Customized is also available.
- ▶ Welcome do OEM and ODM.

## Stainless Steel Square Pipe

- ▶ Material: High grade stainless steel AISI 304 and 316
- ▶ Finish: Satin or mirror polish.
- ▶ Feature: The body formation, the structure is solid, easy to install, durable and corrosion-resistant for engineering structure and pipeline.
- ▶ Application: Mainly used to transport the fluid of the pipeline, such as oil, natural gas, gas, steam.
- ▶ Customized is also available.
- ▶ Welcome do OEM and ODM
