# ABOUT US

United Star Industrial Group Limited(United Star INT'L Industrial Development LTD.) is an enterprise which specializes in the line of household appliances especially the electric fan for years. Engaging in the R&D, design , manufacture, sales and promotion as well. A great success has been achieving since its establishment, it sticks to its route from the very beginning, namely: "Customers first, good faith is supreme, Innovation and development."The internal frameworks of our company is the R&D department, QC department, purchase department, sales department and also the freight forwarding department, etc. Besides, the workshop is more than 20,000 squares meters and with the ISO 9001 certification. UnitedStar is specializing in Solar dc fan,Rechargeable fan, Air cycle fan, and variety of electric fans which reaches the professional standard, passing the certificates including CE/CB/SAA/RoHS/SASO.

With 3 registered trademark, more than 30 patents of invention. And more than 11 years's experience on research and development, three engineers of R&D department devote themselves to the latest and innovative fans, working on the product appearance, structure design and the energy-saving products. The fans are of high quality and competitive prices, thus, they find a ready market in many countries overseas. The yearly sales volume of our company is gratifying, ranking a relatively top position in this line. UnitedStar provides good products and OEM, ODM services sincerely. We cooperate with some well-known enterprises at home and abroad, always are in accordance to the industry standard as well as the international general practices, so as to help a number of end-users improve the visual effect and save the energy by innovating the appearance design and offering the feasible energy conservation schemes.

# Air cooler fan Series

P18-20

NEW ARRIVAL

USAC-006

## PRODUCT FEATURES

Voltage/Power	220V 50Hz/100W
Airflow	1600m <sup>3</sup> /H
Distance of wind	10M
Water tank	15 L
Applicable area	15-20m <sup>2</sup>
Wind speed	3
N.W.	8.8KG
Product size	400X465X905MM

- Cooling, humidification and purification function, a multi-purpose machine.
- According evaporative cooling, humidifying principle, make cooling effect more obvious.
- Multi-function control panel, LED display, Intelligent remote control.
- Anion function, purify air.
- Centrifugal motor, lager wind, low noise.
- Natural wind, sleep wind, standard wind for choose.
- Pull-out water tank, easy for washing.
- 3 speed wind for choose.
